The “2022 Premium Cataract Surgery Market Report” features a new intermediate optimized category of premium IOLs, also referred to as “monofocal plus.” The new report includes a listing of the latest premium IOL technologies that are driving the most recent growth in PC-IOLs—especially EDOF IOLs such as Alcon’s Vivity and J&J’s Symphony OptiBlue, and analyzes the contribution refractive lens exchange has made in expanding the premium IOL market in each of the top 13 countries, including the current and projected penetration over the next five years.

Market Scope

2023 Premium Cataract Surgery Market Report

The “2023 Premium Cataract Surgery Market Report” offers an in-depth examination of the current premium cataract surgery (PCS) market and forecasts performance through 2028. It includes analysis of the global PCS procedure and product revenue, identification of important trends, and discussion of key factors for future success. The following information is also included:

- Presbyopia-correcting, toric, and post-op adjustable IOLs, FLACS lasers, FLACS arcuate incisions, manual limbal relaxing incisions, and excimer IOL enhancements.
- In-depth profiles of the top 13 PCS markets: US, Japan, Germany, France, Italy, Spain, the UK, Canada, Australia, South Korea, China, India, and Brazil
- Snapshots of each of the world’s top 13 PCS countries, listed above.
- Individual country executive summary.
- Analysis of the cost of public and private cataract surgery options by country.
- Forecasts for PCS procedures and manufacturer revenue by country.
- Forecasts for provider revenue resulting from PCS procedures by country.
- Percentage of PCS procedures performed in each key country by cataract-only, cataract/refractive, and refractive-only surgeons.

Premium Cataract Surgery Market by Country
